

CDO Council - January 2021 Survey

Start of Block: Introduction

Introduction **Chief Data Officer's Council Survey - January 2021**

This survey is designed to help the Council address many of the questions that we as a community have been asking ourselves as we figure out how our situations as CDOs compare across government. Your answers will also help the Council with respect to some ongoing projects, e.g. addressing public speaking requests and identifying promising data skills development programs.

In addition, many questions were crafted based on similar questions that were first asked five years prior to the existence of the Evidence Act, as well as last year in polling by the Federal Data Strategy team. As a result, some of our analysis of the results of this survey will involve identifying any trends with respect to responses to similar questions asked over that time period. Please answer as comprehensively as you can, and complete the survey by Friday, January 29. Note- We will remove agency and CDO names from any raw or aggregate data that we make available on the CDO Council MAX site, and hope to share some initial analysis of the survey responses at our February Council meeting.

Q1 Question 1: Name *Response required

Q2 Question 2: Please select the agency where you work. *Response required

Please note that if your agency is not correctly included in the agency list, that you can use "Other" in order to respond. Then please contact cdocstaff@gsa.gov so that we can work to get this fixed.
